

Modifying Rolled Fondant

When modifying rolled fondant to be comparable to 50/50 paste, or to match the rolled fondant if you are using a colored rolled fondant, mix 115g of rolled fondant and add ½ teaspoon of Tylose Powder and ½ teaspoon vegetable shortening. Once this is mixed well, place into a zip-top bag and allow to rest for 15-20 minutes.

(115g / ½ lb ½ tsp ½ tsp)

**If wanting the paste to be more comparable to gumpaste,
double the amount of Tylose.**

(115g / ½ lb 1 tsp 1 tsp)
